

HOMEWORK: HOMEWORK 1.1

Download and install MongoDB from www.mongodb.org. Then run the database as a single server instance on your PC (that is, run the mongod binary). Then, run the administrative shell.

From the shell prompt type

```
db.isMaster().maxBsonObjectSize
```

at the ">" prompt.

What do you get as a result?

```
1 16777216
```
